

Coordination Planning & Scheduling

- 2 Identifying the **resources** available, estimating the **resources** required

2 types of **resources**

Renewable
resources

Non-renewable
resources

- 2.1 Identifying the **resources** that are **available**
 - ➡ The **Resource Breakdown Structure (RBS)**
- 2.2 Estimating the **resources** that are **required**
 - ➡ *See section dedicated to Project Costing*
- 2.3 Assigning **resources** to **activities**
 - ➡ The **RACI Matrix**
